[BLOG](#)

[ABOUT](#)

HOT TOPIC

HIGH CONCENTRATION OF VITAMIN B-COMPLEX INGREDIENT IMPROVES SKIN RADIANCE AND VISIBLY IMPROVES ENLARGED PORES, UNEVEN SKIN TONE, AND OTHER SIGNS OF PREMATURE AGEING.

TOGETHER WITH 1% OIL CONTROL AGENT, IT HELPS TO DEAL WITH BREAKOUT BY REGULATING THE SEBUM PRODUCTION TO MINIMISE PORES AND REDUCE BLEMISH-CAUSING BACTERIA.

About

Vitamin B Complex

i. containing 10% of Vitamin B3, it helps regulate the skin's production of sebum, So Vitamin B3's ability to regulate oil production may help prevent and treat breakouts,

	Vitamin B3 4%	Clindamycin 1%
Overall improved acne skin (1)	82% of volunteers after 8 weeks	68% of volunteers after 8 weeks
Reduced acne severity (2)	-32% (4 weeks),	-64% (8 weeks)
Reduced acne lesions (1,2,3)	Inflammatory acne reduced by 60%	Inflammatory acne reduced by 43%

ii. Vitamin B5 works as a moisturizer on the skin and enhances the healing process of skin wounds. It also helped facial acne and reduced the number of acne-related facial blemishes.

iii. Vitamin B12 may help to reduce skin inflammation, redness, dryness, and acne. It boosts skin cell reproduction, resulting in faster healing of skin issues.

Sebum Control agent

It is a skincare ingredient used to treat acne and spot-prone skin. This is due to the anti-inflammatory properties of the Sebum Control agent, which will help to reduce any swelling and redness around your breakouts.

Additional Info :

It is free of Isothiazolinone (MIT, CMIT, BIT), Parabens, Oils, silicones, SLS / SLES, Soap, Alcohol, Petrolatum, Colourant and Fragrance that is suitable to be used for all skin type even the sensitive skin users.

STAY YOUNG, STAY BEAUTIFUL!

About

Time Reverse Peptide

The multifunctionality and efficacy of 2% Time Reverse Peptide address the primary demand of the skip-care trend driving minimalist beauty: fewer but more effective products to shrink the daily beauty routine while making it more sustainable.

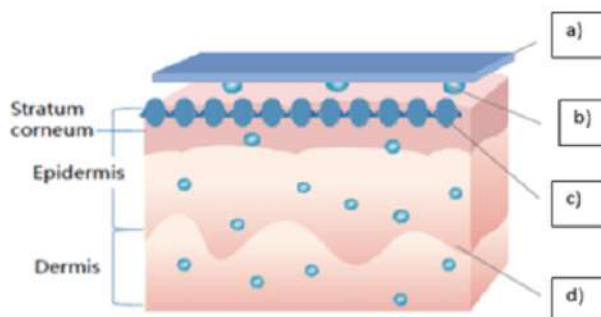

Super Hydra agent

Hydrated skin makes us look fresh and young. This is essential in maintaining and structuring the lipid barrier. A strengthened skin barrier locks in moisture and protects against harmful stressors, resulting in smooth and healthy-looking skin.

Multi-weight Molecular of HA

A combination of four kinds of Hyaluronic Acid building a three dimensional network that accurately target different layers of the skin to replenish water from outside and hold water inside.

Additional Info :

It is free of Isothiazolinone (MIT, CMIT, BIT), Parabens, Oils, silicones, SLS / SLES, Soap, Alcohol, Petrolatum, Colourant and Fragrance that is suitable to be used for all skin type even the sensitive skin users.
